Executive Benefit Plan from The CAP-Ex Group

Differentiate your hospital from the competitors with an executive or physician benefits package that keeps the long-term financial goals of your hospital in mind. The CAP-Ex Group offers a compelling retirement plan that rewards key talent while simultaneously returning all cash contributed into the plan, plus interest, back to your hospital. Instead of an expense, you now have an asset. CAP-Ex allows hospitals and health care organizations to deploy resources in innovative ways that more effectively meet the needs of the institution and its stakeholders.

Vendor Payment Automation from Commerce Bank

Commerce Bank's ControlPay® Advanced automates payments to vendors and offers revenue share back to participating hospitals. Revenue share is volume-driven and based on each hospital's spending level and the aggregated spending of participating hospitals. As more hospitals participate and volume grows, all participants benefit from the higher revenue share percentage. ControlPay works with existing accounting systems at no cost to hospitals.

Accreditation Tracking Software from Verge Solutions

Verge Solutions works with health care organizations to streamline the regulatory compliance process and accreditation requirements. VSurvey, a web-based software for all operational processes that affect a health care organization's accreditations, interfaces with other regulatory standards, including CMS, California Title 22, Magnet, Leapfrog, HFAP, DNV/ISO, HFAP, OSHA, and other federal and state compliance requirements. In addition, Verge clients use customized medical record audits, environmental tours and incident reporting to integrate compliance with patient safety, WHO/IHA Checklist, OPPE/FPPE audits, infection control, RAC preparedness surveys, safety rounds, etc.
